

No wasted energy, with the AutoAdjust and Heat Pump.

The tumble dryer's Heat Pump uses low temperatures, saving up to 50% less energy compared to conventional dryer. And the AutoAdjust sensors inside are able to understand how much laundry is in the drum, which means every cycle is tailored to the load, so nothing is ever overdried.

Product Benefits & Features
Effortless drying, with AutoAdjust and Heat Pump

Your fabrics can be tumble dried thanks to the AutoAdjust Heat Pump and its low-temperature cycles. Smart sensors in the drum read how damp garments are, and tailor the run time to suit - so nothing is ever overdried. With reduced heat, you can save up to 50% energy compared to conventional dryer.

- Full load capacity: 8,0 kg
- Heat pump technology achieves unprecedented energy efficiency
- Sensor drying
- Additional time controlled drying programs
- Reverse tumble action loosens the clothes and prevents tangling and creasing
- Display type: Digit and LED
- Delay start option
- Drying status indication for: Drying, Cool down, Iron dry, Cupboard dry, Extra dry, Anti-crease/end
- Indications for: Filter, Tank, Condenser
- Condense tank position and capacity: Panel left recycled, 5.32 l
- Feet: 4 adjustable feet

Creases reduced with EasyIron

The EasyIron programme means you don't have to spend as much time ironing after your clothes come out the drum. The reverse tumble action keeps clothes moving freely, preventing them from tangling – reducing creases and drying everything evenly.

Dry your cottons and synthetics in one load with Mix EasyDry

Dry your cottons and synthetics together in one cycle with the Mix EasyDry programme. Mixed loads will be dried evenly and efficiently without compromising on results, which means less separating and sorting, and more time for you.

EasyClean filter, for long-lasting performance

Save time on maintenance with the double-sided EasyClean filter. It opens up like a book, trapping lint on the inside, so you can clear it out in just a second. Regular filter clearing lets the tumble dryer work more efficiently, for better results and lower energy consumption.

Reversible door

Don't let the layout of your kitchen, bathroom or laundry room dictate where you place your tumble dryer. By rotating the door's frame, it can be opened in two different positions. So you're free to install it wherever you think is best.

Product Specification

Energy Class	A++	Optional Accessories	Stacking kit, Direct drain hose
Condensation efficiency	B	Program Description	English
Weighted condensation efficiency	81	Program language card	None
Energy cupboard dry 1000	1.93	ProdPartCode	All Open
Annual energy consumption, kWh	235		
Drying Technology	Heat pump		
Drying Capacity (kg)	8,0		
Drum volume	118		
Sound Power Level	66		
Dimensions (mm) (HxWxD)	850x596x638		
Depth max, mm	662		
Cord Length	1.45		
Voltage (V)	230-240		
Required Fuse	13		
Frequency (Hz)	50		
Motor System	Asynchronous		
Door hinges	Right reversible by user		
Tank Capacity	5.32		
Conditioning	Bed linen, Cotton ECO, Cottons, Delicates, Denim, Easy iron, Mix EasyDry, Refresh, Sportwear, Synthetics, Time, Wool		
Cotton Program	None		
Synthetics Program	None		
Included accessories	None
