

Zanussi Built In Microwave ZMBN2SX

The Series 20 ReTurntable will start rotating as soon as the cooking process begins, meaning there's no need to manually turn food part way through. And removing your hot dish when it's done is easy, as the turntable always returns to its original starting position.

Cavity Size: 17

Maximum Microwave output: 800W

Dimensions (HxWxD): 360x562x300

Required Fuse: 10

Noise Level: 60

Number of programs: 5

Low frost, for less defrosting

The Low Frost function means you won't have to defrost your freezer as often. So, it's easier than ever to maintain its performance.

Simple Solution, with the Microwave Function

Effortless results are made easy with out microwave. Heat up from chilled, defrost from frozen, or reheat leftovers – all at the touch of button.

Easy Open, the Touch – Activated Door

The microwave's touch-activated door opens instantly. As it is electronic, unlike the more common spring-loaded mechanism, it requires minimal effort to open the door.

Save your settings, with the favourite Function

Save your preferred settings on the microwave and get cooking quicker, using the favourites Function. You only need to program the power and cooking time once, and then just touch the star shape to activate. Microwave cooking just got easier.
