

EW6F594U

Perfect Care 600 with SensiCare System Technology

Thanks to special sensors, it is able to automatically adjust the cycle according to the load, ensuring saving time, water, and energy for a delicate and sustainable wash.

Wash up to 50% faster with the option TimeSave

Experience a thorough wash faster with TimeSave option. Press the button to reduce the program cycle time by up to 50%. Your cotton and synthetic garments will undergo the same complete wash, only in half the time.

Add Steam, to Clean In Depth

The AntiAllergy Vapour 60°C wash program delivers steam at the end of the cycle, to give your garments a hygienic and efficient cleaning. This helps reduce bacteria and allergens from clothes and promoted better laundry hygiene.

Inverter Motor- durable and energy efficient

Experience energy efficient cycles with the inverter motor. Built to ensure greater energy efficiency and durability.

Product Specifications

Dimensions HxWxD (mm)	847x597x636
Net weight (kg)	74.5
Maximum Capacity	9
Maximum Spin	1400
Energy Efficiency Class	A
Program Power Consumption	49
Noise Level (dB)	76
