

MultiChill 0°C- Flexibility and customization for your needs

MultiChill 0°C offers multiple temperature zones to protect food quality with precision. The convertible drawer can be set from -3 to +5 degrees depending on whether you need it for cold cuts & cheese, chilling drinks, or frozen items.

Product Benefits & Features

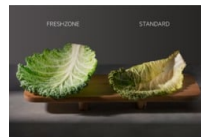

Customised food storage with adaptable MultiChill 0°C drawer.

Configure your fridge with a place for cold cuts & cheese, to chill drinks or an extra space for frozen items. Set the MultiChill 0°C drawer's temperature between -3°C and 5°C for optimal food storage.

With the MultiChill 0° drawer, you can set the optimal temperature for your ingredients, from -3°C to 5°C. Preserve the ideal flavour and texture of your food.

FreshZone drawer with advanced humidity control

Eat healthier by adding more fruit and vegetables to your diet. The adjustable humidity level in the FreshZone drawer creates the perfect environment for storing fresh produce, helping to preserve taste, texture, and colour.

Keep your freezer ice free, with No Frost

No Frost means there's no defrosting. It keeps the freezer ice-free, so you can always be sure of maximum performance.

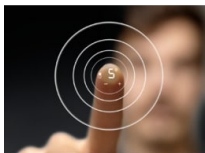

Stable, even temperature and humidity, with MultiFlow

MultiFlow protects food quality by maintaining stable, even temperature and humidity. Multiple air channels in the back wall actively circulate cold air to reach every corner and allow storage in the back without the risk of freezing items.

Fine-tune settings with Touch Electronic Control

Take complete command of every fridge function with Touch Electronic Control. The panel and LED display offer effortless access to temperature and general settings. Fine-tune everything with precision for superior food storage.
