

Up to 3x better cleaning without using extra water with SatelliteClean®

The SatelliteClean® 600 Series dishwasher has an innovative spray arm that cleans 3 times better than a standard spray arm. It ensures cleaning of every corner, removing even the most difficult residues.

Product Benefits & Features

SatelliteClean®. Complete cleaning. Without additional water.

Thoroughly clean every dish with SatelliteClean® - cleans up to 3 times better than a standard dishwasher. Thanks to the satellite spray arm that continuously changes the angle of the water jet, even the most stubborn residues are thoroughly cleaned.

Save time and space with the MaxiFlex tray

The MaxiFlex cutlery tray is designed to accommodate utensils of different shapes and sizes, allowing you to wash your dishes in one solution.

QuickSelect with Ecometer guides you to saving energy and water.

Sustainable choices made easy. Use the Quickselect touchscreen to select your preferred wash time and, thanks to the intuitive green Ecometer bars, choose the optimal program to save energy and water.

Remove germs and bacteria from your dishes with the ExtraHygiene function

The ExtraHygiene function offers maximum cleaning performance, ensuring excellent sanitization. The ExtraHygiene function maintains a temperature between 65°C and 69°C in the final rinse phase, for at least 10 minutes, so as to sanitize the dishes by removing more than

*Tested for Micrococcus luteus and bacteriophage MS2 in an external test performed by Swissstat Testmaterialien AG in 2021 (test report no. 20212029).

You'll always know when your dishwasher is done with Beam on Floor

The Beam on Floor light system keeps the kitchen quiet. Instead of a barely audible beep, our dishwasher clearly indicates its status by projecting a dot on the floor. Red when it is operating, green when the cycle is complete.

- Energy smart: self-reduction of consumption
- AutoOff function (automatic switch-off)
- Hot water connection management (energy savings up to 35%)
- Satellite reel
- Delayed departure
- End of cycle acoustic warning
- Beam on floor: two-color end-of-program indicator light
- Inverter Technology
- Pure Crystal system (anti-fogging of glass and crystal)
- Automatic half load
- Water turbidity sensor
- Hot water connection management (energy savings up to 35%)
- Integrated Aqualock safety system
- Self-balancing sliding hinges for long doors
- Perfect Fit door fixing system
- AirDry technology (automatic door opening at the end of the cycle)
- Black aesthetics
- Washing programs: 160 Minutes, 60 Minutes, 90 Minutes, AUTO Sense, Eco, Machine Care, Quick 30 Minutes, Soak
- Integrated Aqualock security system

Product Specification

Net weight (kg)	37.28
Gross weight (kg)	39
Energy efficiency class E20	B
Energy consumption of the eco program in kWh for E20 cycle	0.644
Water consumption of the eco programme in litres per cycle (Regulation (EU) 2017/1369)	9.9
Washing efficiency index E20	1.121
Drying efficiency index E20	1.061
Dimensions (mm): Height (min-max) x Width x Depth	820-900x600x560
