

Ultimate 800 Cordless Vacuum Cleaner. One Charge to Clean Everything

Clean your entire home in one go and eliminate dust with incredible precision, no matter the surface. Discover the powerful and versatile vacuum cleaner, designed to meet your needs.

Product Benefits & Features

Up to 6 times* more powerful The high-speed motor delivers 6 times* suction power for a thorough cleaning result.

**Based on internal tests for suction power on handheld unit according to IEC 62885-2, compared to previous model EER75STM.

Battery life up to 60 minutes*

You will be able to vacuum dust throughout the house, without having to recharge the battery.

*Based on internal testing of handheld unit in min mode according to IEC 62885-4.

**Internal tests support up to 35 min. of use in minimum mode, which equates to a calculated surface area of up to 75 m2.

Just a simple touch of the button is all it takes to release the portable unit

The quick release function makes it easy to use the vacuum cleaner. Just one touch of the button is enough to easily detach the handheld unit from the charging station and be able to do everything with one hand.

The automatic mode adapts the suction to the different surfaces to be cleaned

Whether hard floors or carpets, the automatic mode adapts the suction power to the type of floor for effective cleaning.

Start vacuuming without having to lift it from the charging base

Simply undock the vacuum cleaner from the charging base to use it – no need to lift it.

• Weight (kg): 6.31
